When you simply want to drive and enjoy the ride, the 2017 BMW 3 Series Sedan with its STEPTRONIC Sport Automatic Transmission can't be beat. Manual transmissions would be considered the purist's choice, as the gearbox will not change gears without your input on the shift lever and your foot pressing down on the clutch pedal.

**2017 BMW 3 Series Transmissions: Automatic vs. Manual**---

Bmw Manual Vs Automatic Transmission With an automatic transmission, the car does the shifting for you. With a manual (or stick shift), you're in control. Driving a stick shift means knowing when to shift the gear so your engine remains protected, which seems like an unwelcome responsibility to some people. Automatic vs. Manual: What's the Difference?

**Bmw Manual Vs Automatic Transmission**

As for manual vs automatic. Manual is low cost maintenance in case of problems compared to automatic. However, if the manual car is badly driven, you will experience a lot of problems with the gears themselves. I would suggest replacing the clutch as soon as possible after you buy the car since it is 15 years old. It will make a smoother drive.

**Dual Clutch vs Manual Transmission BMW M4**

Sure, a manual gearbox offers more control under those conditions when you need it, but an automatic gives you the flexibility of letting the car decide the shift times when necessary—like during your morning commute. But with BMW's Steptronic automatic transmission, there's no need to choose. That's because this “manu-matic” gearbox offers the best of both worlds; a manual-shifting experience when you want it, and a multi-drive mode automatic when the situation calls for it.

Automatic and manual are the two most common types of transmissions. A manual transmission means that the driver has to shift the gears themselves, using a stick-shift, while an automatic means your car will shift gears on its own. In the U.S., automatic cars are vastly more popular than manual, or standard, cars.
