Overview. The impressive BMW R1150RT is all that should encompass a touring motorbike; superb comfort, room for luggage and plenty of power, but what makes it stand out for its competition? The lightweight handling. The dry weight of the bike

clocks in at only 255kg,
considerably lighter than
most tourers.

You don ' t get much of a re-style, but as this is my first real experience of riding a BMW I ' m quite looking forward to it. The motor ' s a raspy-sounding twin with a real bit of character. It makes good power from 4,000rpm through to a shade over 7,000 and the redline appears just 500rpm later.
