How to Troubleshoot a Gas Club Car | It Still Runs
Club car engine runs good sometimes especially when cold but after running awhile it starts to sputter and won't accelerate. Anyone know what this is?

clubcar gas engine problems - YouTube
The most likely cause of gas spitting from the golf cart valve is due to the needle valve in the carburetor of your cart not working properly. It's not stopping fuel that flows into the carburetor right. This causes the fuel to continue to flow and eventually wind up in the engine crankcase.

(How to Fix) Golf Cart that Spits & Sputters Gas, Blows ...
If the oil is blackened or dark, you need to change it. Get a new oil filter and enough oil to refill the engine. Drain the oil through the plug on the oil pan underneath. Change the filter out and refill it with clean oil. Gas Lines. You are also going to want to check all the fuel lines coming from the gas tank and going into the engine.

Troubleshooting Your Gas-Powered Golf Cart Motor ...
Turn the ignition key in the Club Car's ignition. Check the gas gauge to make sure that the club car has enough fuel in the tank to start. Fill the fuel tank with 1 gallon of gasoline to get the Club Car to start. Change the air filter inside the Club Car. This is located next to the engine. Use your fingers to pull the air filter out of the housing.

If Club Car doesn't fix the problem soon, Club Car needs to replace these engines with one that don't have this problem or replace the cart. I purchased a new cart to avoid having any major issues verses buying a used golf cart with a long history. It seems that even the Club Car Dealer Reps are being somewhat kept in the dark on what Club ...

2019 Onward Kohler Issues - Buggies Gone Wild
If engine starts/runs then quits when the added gas burns off, the problem will probably be dirty carb. since you have already addressed filter, fuel lines, pump. If problem persist after carburetor cleaned/rebuilt the new pump may be faulty, vacuum line to pump pinched or plugged.

SOLVED: Fuel system flow problem. Engine will not start ...
Check Piston Rings: If you realize too much gas is entering your engine, you should replace the piston rings and replace the oil. See if these help your problem, if not, investigate other possibilites of fuel leaking into the oil. Try for fuel injectors test, and check the spark plugs also.

SOLVED: I have gas in the oil. I am assuming it is the ...
For example, top speed on a Precedent cart is 19 mph, while a Yamaha will only get to the 15 mph level, and that is pretty standard for a typical gas or electric cart. Both the Club Car Tempo and Precedent boast a 404cc engine with an overhead cam, versus the 357cc engine that comes in the Yamaha. Both models have electronic fuel injection.

A Comparison: Club Car Gas vs Yamaha Gas | Golf Cart Resource
Problem Cause Fix; Poor gas economy: Only partial opening of the choke: Adjust the choke: Starter has rotation but the engine is difficult to start or will not start at all • The engine is flooded with gas • The engine is short of gas • Push choke inwards. Wait for at least 15 minutes so that fuel is drained and start the engine again.
