L.Rajesh Patro currently working as Associate Professor in Gokul college of Pharmacy in a department of Pharmaceutics, Bobbili, vizianagaram, Andhrapradesh.

The trusted training resource for pharmacy technicians at all levels. The role of pharmacy technicians is rapidly expanding, and demand for well-trained technicians has never been higher! Technicians are assuming more responsibilities and are taking on greater leadership roles. Quality training material is increasingly important for new technicians entering the field, and current technicians looking to advance. Look no further than the new 5th edition of the best-selling Manual for Pharmacy Technicians to master the practical skills and gain the foundational knowledge all technicians need to be successful.

Pharmacists have been responsible for compounding medicines for centuries. Although most modern medicines are not compounded in a local pharmacy environment, there are still occasions when it is imperative that pharmacists have this knowledge. Pharmaceutical Compounding and Dispensing provides a comprehensive guide to producing extemporaneous formulations safely and effectively. The book covers three core sections: the history of compounding; pharmaceutical forms and their preparation; product formulae. This is a modern, detailed and practical guide to the theory and practice of extemporaneous compounding and dispensing. Fully revised and updated, this new edition will be an indispensable reference for pharmacy students and practicing pharmacists. Supplementary videos demonstrating various dispensing procedures can be viewed online.

This book is an invaluable source designed to meet the needs of pharm.D and other pharmacy courses. This book was made according to the PCI syllabus. This book covers topics like syrups, elixirs, linctus, solutions, liniments, suspensions, emulsions, powders, suppositories, incompatibilities, with an introduction before it. This book helps the student to write the academic pharmaceuticals record more easily. It has been noticed that practical of pharmaceuticals leave students a little confused, especially during their examination. Finally, this book aims to present the practicals in a student friendly style so that they can easily grasp and do the practicals in the lab more easily by own which interns will help them to achieve the best grades in examinations.

- It covers all feasible exercises in pharmacology. The exercises vary from simple demonstration to computer simulation models - The manual has been written keeping in view the desired shift in the pharmacology practical teaching from pharmacy based redundant experiments to more meaningful.
