If you can build websites with CSS and JavaScript, this book takes you to the next level—creating dynamic, database-driven websites with PHP and MySQL. Learn how to build a database, manage your content, and interact with users. With step-by-step tutorials, this completely revised edition gets you started with expanded coverage of the basics and takes you deeper into the world of server-side programming. The important stuff you need to know: Get up to speed quickly. Learn how to install PHP and MySQL, and get them running on both your computer and a remote server. Gain new techniques. Take advantage of the all-new chapter on integrating PHP with HTML web pages. Manage your content. Use the file system to access user data, including images and other binary files. Make it dynamic. Create pages that change with each new viewing. Build a good database. Use MySQL to store user information and other data. Keep your site working. Master the tools for fixing things that go wrong. Control operations. Create an administrative interface to oversee your site.

In 1769, the court of Empress Maria Theresia witnessed one of that era's most amazing feats of engineering: a machine that could play chess. Artfully constructed by a Hungarian nobleman named Wolfgang von Kempelen, the chess-machine played a unique game against each opponent, far surpassing the abilities of all its fellow automata. Throughout its eighty-five year career, audiences across Europe and the Americas flocked to see the mechanical marvel seemingly capable of human intelligence; Napoleon, Charles Babbage, and Benjamin Franklin were among its challengers, and Edgar Allen Poe wrote an essay attempting to explain how it worked. Despite its demise over a hundred fifty years ago, its mystery continues to fascinate, and its audience's reaction to its Orientalist trappings casts fresh light on our present sense of the 'exotic'. Written and Illustrated by Jane Irwin, author of the *Vogelein* graphic novels, *Clockwork Game* retells the true story of the world's first chess-playing automaton, blending reality and fiction into a singular graphic novel.

Written by a practicing business attorney with startup experience in the environmental and technology sectors, this comprehensive handbook assists entrepreneurs in tackling the wide variety of opportunities to go green. A one-stop resource for entrepreneurs, it helps readers incorporate clean technology, environmental practices, and green business approaches into the work environment. The book discusses how to sell to utilities, explores fundraising outlets for green businesses, covers government incentives, presents key startup tools aimed at green businesses, and addresses challenges of many new businesses, such as raising money and making sales. Additional resources are available on the book's website.

She's on the sheriff's most wanted list. Waking up with a naked woman holding a knife at his throat is just about the last thing Sheriff Travis Flynn expected. And the brother she's looking for? A murderer. And dead. Probably. But the real shock comes when she insists she's not a Lycan. LeAnn Wilcox isn't looking for love...especially not from some wolf in sheriff's clothing. She operates on the other side of the law. Once she finds her brother-alive-she'll get out of the pack's territory and go back to her regular, normal, non-furry life of changing jobs and her name whenever her past closes in. The cool, logical Sheriff has finally met his match, but LeAnn's life is at stake if she won't claim her place in the pack, especially once his control over the pack is challenged and her brother's fate is questioned.
