Elementary Differential Equations with Boundary Value Problems is written for students in science, engineering, and mathematics who have completed calculus through partial differentiation. If your syllabus includes Chapter 10 (Linear Systems of Differential Equations), your students should have some preparation in linear algebra.

ELEMENTARY DIFFERENTIAL EQUATIONS

This edition, like its predecessors, is written from the viewpoint of the applied mathematician, whose interest in differential equations may be highly theoretical, intensely practical, or somewhere in between. We have sought to combine a sound and accurate (but not abstract) exposition of the elementary theory of differential equations with
