In Georgian London: Into the Streets, Lucy Inglis takes readers on a tour of London's most formative age - the age of love, sex, intellect, art, great ambition and fantastic ruin. Travel back to the Georgian years, a time that changed expectations of what life could be. Peek into the gilded drawing rooms of the aristocracy, walk down the quiet avenues of the new middle class, and crouch in the damp doorways of the poor. But watch your wallet - tourists make perfect prey for the thriving community of hawkers, prostitutes and scavengers. Visit the madhouses of Hackney, the

workshops of Soho and the mean streets of Cheapside. Have a coffee in the city, check the stock exchange, and pop into St Paul's to see progress on the new dome. This book is about the Georgians who called London their home, from dukes and artists to rent boys and hot air balloonists meeting dog-nappers and life-models along the way. It investigates the legacies they left us in architecture and art, science and society, and shows the making of the capital millions know and love today. 'Read and be amazed by a city you thought you knew' Jonathan Foyle, World Monuments Fund 'Jammed with unusual insights and facts. A great read from a talented new historian' Independent 'Pacy, superbly researched. The real sparkle lies in its relentless cavalcade of insightful anecdotes . . . There's much to

treasure here' Londonist 'Inglis has a good ear for the outlandish, the farcical, the bizarre and the macabre. A wonderful popular history of Hanoverian London' London Historians In 2009 Lucy Inglis began blogging on the lesser-known aspects of London during the Eighteenth Century - including food, immigration and sex- at GeorgianLondon.com. She lives in London with her husband. Georgian London is her first book.

Sir John Summerson presents a picture of the architectural rebirth that transformed the appearance of London between 1714 and 1830. Considering a wide range of buildings, from those of Adam and Nash to the work of cavalier speculators and reformist legislators, Summerson combines analysis of great and

famous structures - Westminster Bridge, the Bank of England and the Horseguards - with a detailed description of the historical circumstances out of which they arose.

Provides an international history of urban development, from its origins to the industrial revolution. This well established book maintains the high standard of information found in the previous two editions, describing the physical results of some 5000 years of urban activity. It explains and develops the concept of 'unplanned' cities that grow organically, in contrast with 'planned' cities that were shaped in response to urban form determinants.

Spread throughout the texts are copious illustrations from a wealth of sources, including cartographic urban records, aerial and other photographs, original drawings and the author's numerous analytical line drawings.

Perhaps no other American city is so defined by an indigenous architectural style as Baltimore is by the rowhouse, whose brick facades march up and down the gentle hills of the city. Why did the rowhouse thrive in Baltimore? How did it escape destruction here, unlike in many other historic American cities? What were the forces that led to the citywide renovation of Baltimore's rowhouses? The Baltimore Rowhouse tells the fascinating 200-year story of this building type. It chronicles the

evolution of the rowhouse from its origins as speculative housing for immigrants, through its reclamation and renovation by young urban pioneers thanks to local government sponsorship, to its current occupation by a new cadre of wealthy professionals.

The Familiar Past surveys material culture from 1500 to the present day. Fourteen case studies, grouped under related topics, include discussion of issues such as: * the origins of modernity in urban contexts * the historical anthropology of food * the social and spatial construction of country houses * the social history of a workhouse site * changes in memorial forms and inscriptions * the archaeological treatment of gardens. The Familiar Past has been structured
