The story of Dhul-Qarnayn (in Arabic ذئقارنقن، literally "The Two-Horned One", also transliterated as Zul-Qarnain or Zulqarnain), mentioned in the Quran, may be a reference to Alexander III of Macedon (356–323 BC), popularly known as Alexander the Great. Some Western and traditional Muslim scholars identify Alexander the Great as Dhul-Qarnayn (Quran 18:83–94).

The Chang'e lunar program, named after the ancient Chinese moon goddess, has been operating the Chang'e 4 probe on the moon's less explored far side for the past two years. Future plans call for returning a human to the moon and perhaps a permanent moon base. China is also building a space station to begin operating as early as 2022.

A selection of the best in travel writing, with both fiction and non-fiction presented together, this companion is for all those who like travelling, like to think about travelling, and who take an interest in their destination. It covers guidebooks as well as books about food, history, art and architecture, religion, outdoor activities, illustrated books, autobiographies, biographies and fiction and lists books both in and out of print. Anderson's Travel Companion is arranged first by continent, then alphabetically by country and then by subject, cross-referenced where necessary. There is a separate section for guidebooks and comprehensive indexes. Sarah Anderson founded the Travel Bookshop in 1979 and is also a journalist and writer on travel subjects. She is known by well-known travel writers such as Michael Palin and Colin Thubron. Michael Palin chose her bookshop as his favourite shop and Colin Thubron and Geoffrey Moorhouse, among others, made suggestions for titles to include in the Travel Companion.

The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records. From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth, British imperialism was a catalyst for far-reaching change. The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning, the meaning of British imperialism for the ruled as well as for the rulers, and the significance of the British Empire as a theme in world history. This fifth and final volume shows how opinions have changed dramatically over the generations about the nature, role, and value of imperialism generally, and the British Empire more specifically. The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire: the pressure of current events, access to primary sources, the creation of relevant university chairs, the rise of nationalism in former colonies, decolonization, and the Cold War. They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide-ranging enquiry about international relations, the uses of power, and impacts and counterimpacts between settler groups and native peoples. The result is a thought-provoking cultural and intellectual inquiry into how we understand the past, and whether this understanding might affect the way we behave in the future.

This volume explores the origins of empire. It shows how and why England, and later Britain, became involved with transoceanic navigation, trade, and settlement during the 16th and 17th centuries. Included are studies on every country that was substantially affected by British colonial activity.

Pakistan has over the decades become a hotbed for the terrorist ideology often referred to as Jihadism. This book investigates the underlying principles of Pakistan's foreign policy from 1947 until the present day, and explains the rise of Jihadism as an offshoot of Pakistan's security concerns. The book goes on to discuss that from its inception as a separate state, Pakistan's foreign policy focused on 'seeking parity' with India and 'escaping' from an Indian South Asian identity. The desire to achieve parity with its much larger neighbour led Pakistan to seek the assistance and support of allies. The author analyses the relationship Pakistan has with Afghanistan, United States, China and the Muslim world, and looks at how these relationships are based on the desire that military, economic and diplomatic aid from these countries would bolster Pakistan's meagre resources in countering Indian economic and military strength. The book presents an interesting contribution to South Asian Studies, as well as studies on International Relations and Foreign Policy.
