Laranya Shukla. , student of Economics.
Answered October 20, 2016. Mishra and Puri is better among the two books for a beginner because : easier language, it makes you understand the problem first and then proceeds with scenario in India , its presentation is easier to follow and skim through therefore easier to revise and make notes, it highlights all important points as well.

This report describes the world economic outlook as of April 2018, projecting that advanced economies will continue to expand above their potential growth rates before decelerating, while growth in emerging markets in developing economies will rise before leveling off. It details global prospects and policies, including risks to the forecast, and essential determinants of long-term economic growth: labor force participation in advanced economies, the declining share of manufacturing jobs

globally and in advanced economies, and the process through which innovative activity and technological knowledge spread across national borders.

The present edition is brought up to incorporate the useful suggestions from a number of readers and teachers for the benefit of students. A topic on common-collector configuration is added to the chapter XIII. A new chapter on logic gates is introduced at the end. Keeping in view the present style of university Question papers, a number of very short, short and long
