Before the Brothers’ War. Before the five colors of magic. Before history itself, the plane of Dominaria was ruled by the Thran. They built machines and artifacts, the likes of which have never since been seen. But amid this civilization, a shadow took root, one that would stretch its arms across space and time. The hideous evil of Phyrexia was born.

Before history itself, the plane of Doninaria was ruled by the Thran. They built machines and artifacts, the likes of which have never been seen. But amid all this, a shadow took root, one that would stretch its arms across space and time.

Urza’s Legacy Unfolds Urza Planeswalker has enlisted the most brilliant minds from across Dominaria to study at his academy on Tolaria. Together they work to bring to life the greatest artifact weapon Urza has ever devised, hoping to use it to defend their home from an imminent Phyrexian invasion. But treachery and tragedy stalk the tiny island, as Urza and his followers seek to manipulate time itself.

The Myth. The Magic. Dominarian legends speak of a mighty conflict, obscured by the mists of history. Of a conflict between the brothers Urza and Mishra for supremacy on the continent of Terisiare. Of titanic engines that scarred and twisted the very planet. Of a final battle that sank continents and shook the skies. The saga of the Brothers’ War.

“Before planeswalkers, before the five colors of magic, before history itself, the plane of Dominaria was ruled by the Thran. They built machines and artifacts, the likes of which have never since been seen. But amid this civilization, a shadow took root, one that would stretch its arms across space and time: the hideous evil of Phyrexia was born. And in its wake arose a mighty conflict between the brothers Urza and Mishra, a battle of titanic engines that scarred an entire plane and that altered the course of history. So begins the saga of the brothers’ war”-P. [4] of cover.

The Phyrexian nightmare begins. Dominaria faces its biggest threat—an invasion by its greatest enemy, an attack planned for eons by merciless foes. No one is exempt from their terror. No land is safe from their onslaught. In the shadow of the Phyrexian horde, Dominaria has but one hope—the Weatherlight and her crew. The time has come to defend hearth and home from invasion.

Despite the state of turmoil in the world—with the forest growing out of control, the mountains erupting, the seas boiling, and the plains turning to desert—human civilization finds some relief in the brutal spectacle of the pit fights in which warriors battle to the death before huge crowds. Original.

The first wave is over, but the invasion rages on. In the midst of all-out war, the ground shifts and moves. Millions upon millions of invaders appear out of nowhere as the artificial plane of Rath overlays Dominaria, covering the natural landscape with the unnatural horrors of Phyrexia. There is no rest for the wicked.

Urza Triumphant The war between Urza and Mishra is over. Brooding on the death of his brother at the hands of extraplanar forces, Urza drifts among the planes. But the end of the Brothers’ War has transformed him into something greater. Deep within his heart, a spark has been kindled to a flame that cannot be quenched. Urza has become a planeswalker.

A collection of original short stories explore the world of Dominaria and the fearsome creatures that stalk the land, including dragons, lhungoys, and delraichs, in an anthology featuring the work of Tom Dupree, A. L. Lasseur, Will McDermott, Tim Ryan, Brian Thomsen, Denise R. Graham, and Jess Lebow, among others. Original.
