Wheel Balancers | Hunter Engineering Company®

We had a Bear tire-wheel balancing machine in the 1950s and 60s. We could statically and dynamically balance on that machine. The tire-wheel assembly was mounted on the balancer. We would first do the static balance and then the dynamic balance. The machine was crude compared to today's balancers, but it would indicate where to place the weights.

Wheel/Tire balancing on pre-War cars - Technical - Antique ...

In 1984, Allan moved to California and in 1985 entered the balancing clamping tool business. He has invented many products since that time and is now in charge of design, engineering and production setup for Vibration Solutions. It is interesting then, that his first major invention had little to do with wheel balancing.
